Waterproofing

Multiple products allowing you to use it on roof, over head tank, underground tank, waste water treatment plants, septic tank, shells, etc. Waterproofing applied to steel, concrete, and fabricated structures. The easy-flow formulation delivers a smooth, mess-free finish with low VOC content, suitable for steel, concrete, and fabricated structures.

OUR SERVICES

- POSITIVE WATER PROOFING
- NEGATIVE WATER PROOFING
- CEMENTITIOUS COATINGS
- EPOXY COATINGS
- PU COATINGS
- MEMBRANE SHEET
- DRAINAGE BOARDS
- PROTECTION BOARDS
- WATER STOPPER
- SWELL BARS
- PVC MEMBRANES
- HDPE MEMBRANES
- GEO MEMBRANES
- GEO TEXTILE
- BITUMEN EMULSION
- HOT BITUMEN
- FIBER COATING
- RUBBER COATING
- ZINC ENRICH PRIMER

Sealants

We provide all type of sealants for expansion joints, contraction joints, construction joints, runways, deck ways etc. and we also have the skilled teams for the applications.

We deal in :

- PU sealant
- Bitumastic sealant
- Aerolastic sealant
- Permalastic sealant
- Acrylic sealant
- Safelastic sealant
- Polysulphide sealant

Features :

PU, Aerolastic, Permalastic, and Safelastic sealants offer flexibility, strong adhesion, and weather resistance. Bitumastic provides excellent waterproofing, while Acrylic is easy to apply and paintable.

Use Case :

Deal for sealing joints, cracks, gaps, windows, doors, roofs, concrete structures, and other construction areas requiring durable protection.

Paints & Road Marking

OUR SERVICES

- Maximum visibility – day & night.
- Withstands heavy traffic & weather.
- Fast-drying – less downtime.
- Strong bond to asphalt & concrete.
- Resists UV & extreme temps.
- Anti-slip for safety.
- Eco-friendly, low-VOC options.

Marketing Plan.

Usman Consultants will position itself as a single-source technical partner for construction chemicals, structural repair, and surface solutions in Pakistan. Our full-spectrum catalog — admixtures, waterproofing, sealants, flooring, and road marking — will help us become a preferred vendor for contractors and government projects seeking fewer suppliers. We will target infrastructure contractors, industrial owners, and municipal bodies through technical support, certified materials, reliable delivery, B2B outreach, trade exhibitions, digital presence, and dealer partnerships.

PRODUCT

A complete, integrated range of construction chemicals and surface solutions — from admixtures and structural repair to waterproofing, sealants, and industrial flooring — allowing clients to source multiple project needs from one technically qualified supplier.

PRICE

Competitively priced materials with volume-based discounts for bulk and multi-category orders, structured to reward contractors who consolidate their procurement with Usman Consultants.

PROMOTION

Technical-first marketing: on-site engineering support, application demonstrations, and case studies from completed projects, distributed through trade shows, LinkedIn/B2B platforms, and direct outreach to contractors and consultants.

PLACE

Direct sales from our Faisalabad base, supported by an expanding distributor network across Pakistan, with online inquiry and ordering to reduce lead time for repeat client

COMPANY GOALS

- **Develope business contract with new contractors.**
- **Never compromise on quality of materials and services.**
